Business & Home Solutions

## VigorACS SI Central Management

- Supports TR-069 Vigor series routers
- Unlimited Network level to group CPEs
- Remote Auto Provisioning and Status Monitoring
- Dynamic and Schedulable Service Provisioning
- VPN Wizard for easy configuration
- Daily Report and Performance for Review
- System Log System
- Real Time Alarm Management
- Topology Management
- Advance Firmware Management
- Security and User Group Management

## Vigor2760 Series

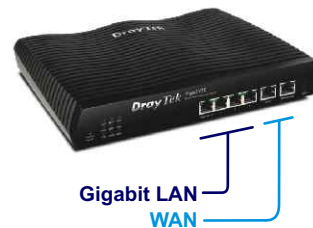

- VDSL2 and ADSL2+ fall-back
- 4-port Gigabit LAN switch
- IPv6 & IPv4 Support
- Comprehensive Firewall
- Bandwidth Management
- Multi-Task USB port
- 4-port Gigabit LAN switch

## Vigor2920 Series

Dual-WAN

- Dual WAN Router
- 32 VPN tunnels
- VPN backup
- Multi-Subnets

## Vigor2860 Series

- VDSL2/ADSL2+ fall-back
- Built-in 6-port Giga LAN switch
- Comprehensive Firewall & Bandwidth Management
- Multi-subnets for secure and efficient workgroup management
- Up to 32-session VPN
- 2 USB ports

## Vigor3200 Series

Multi-WAN

- 4-WAN Router
- 64 VPN tunnels
- Support VPN Backup and Load Balance (VPN Trunking) for WAN1 and WAN2
- Active Directory/LDAP Group Management for VPN remote dial-in authentication

## Vigor3900

- 4-Gigabit WAN & 2-Gigabit LAN ports
- Business Continuity by Dual WAN Load-balancing/Failover
- Advanced Firewall for Network Security
- 500 VPN Tunnels for Secure Remote Access
- High Availability

## Vigor2960

- 2-Gigabit WAN & 4-Gigabit LAN ports
- Manage Ultra Fast High-Speed Internet
- Business Continuity by Dual WAN Load-balancing/Failover
- Advanced Firewall for Network Security
- 200 VPN Tunnels for Secure Remote Access

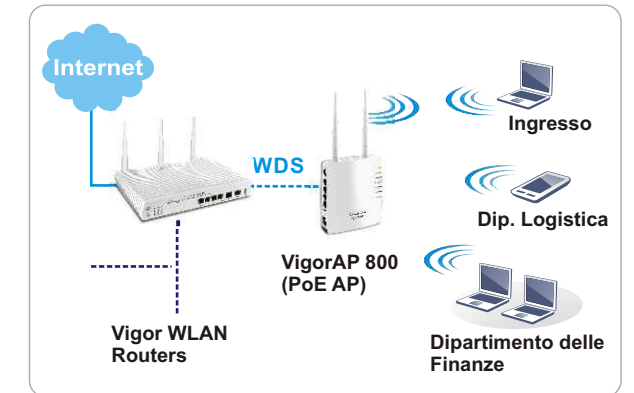

## Vigor300B

- Business Continuity by 4-Gigabit-WAN connection load-balancing/failover
- 2-port Gigabit LAN
- The 4th WAN can be configurable as DMZ port
- Firewall & Bandwidth Management

## VigorAP 800

- Wi-Fi Access Point
- PoE
- Dual LAN
- USB port for connection to DrayTek N65

## VigorSwitch G2260

- 20 10/100/1000Base-T Gigabit Ethernet ports Layer 2+ managed
- Fiber connectivity by 2 SFP and 4 Combo UTP/SFP ports
- Power saving by 802.3az Energy Efficient Ethernet
- VLAN features for providing both security and performance
- Enhanced manageability, security, 8-level QoS, and performance
- Voice VLAN to prioritize voice traffic automatically
- s-Flow mechanism monitoring network without breaking down data flow
- Support IPv6 and IPv4 for the next generation network
- Easy-Port-Configuration for IP Phone, IP Camera or Wireless environment
